BOOK-BINDING ESTABLISHMENT.
AN OLD FRIEND IN A NEW PLACE!
Blank Book Manufactory and Stationery.
170 East Water street,
Third door north of Michigan street, up stairs,
And 335 Third st., 2d Ward, old stand,
Milwaukee, - - - Wisconsin.

HENRY NIEDECKEN,
A PRACTICAL BOOK-BINDER of long experience, in all its branches, would most respectfully inform the citizens of Milwaukee and the surrounding country, that he is prepared to bind any description of Books, being possessed of the best gilding and finishing tools, and keeping constantly on hand the first quality of binding material. He has found it necessary, by reason of *increasing business*, (consequent upon his low price and superior quality of work and materials,) to open another
Bindery, Ruling and Blank Book Establishment,
for the convenience of his "down town" friends, at the above mentioned place, where he will be happy to see his old customers and as many new ones as will favor him with their patronage.
Blank Books for banks, merchants, county clerks, recorders, auditors, treasurers, school commissioners, magistrates, insurance offices, &c, manufactured in the best manner, which in elegance durability, and superiority of style and finish, will not be surpassed by any eastern manufacturer. In all his large blank books, he uses the improved patent mode of sewing, which gives strength, with great elasticity, and is incomparably superior to any other method for blank books, and will keep the leaves firm and solid while the book lasts, instead of coming to pieces, as is often the case with all other methods. No additional charge is made for this improvement.
Machine Ruling.—Ruling of every description, for blank books, tax lists, &c, neatly and promptly executed.
Fancy Articles.—He is also prepared to make all kinds of fancy articles, such as ladies' and gentlemen's portfolios, caskets, card, spectacle and segar cases, pocket books, &c, with neatness and despatch.
Ruled Music Paper.—He will also keep on hand a supply of blank paper ruled for manuscript music, which he can sell at so low a price that it will be a great saving of time, labor and money, to buy this all ruled and ready for writing the music
Albums, Magazines, Music Books, &c, will be bound with the greatest care, and in a neat and elegant style, to which the attention of the ladies is most particularly invited.

Bibles, Hymn, Prayer and School Books,
are constantly kept on hand, as also
STATIONERY, of all kinds, such as writing paper, ink, quills, steel pens, sealing wax, slates, writing books, and wafers, and a variety of books too numerous to mention.

GILT PICTURE FRAMES.
He is also in constant receipt, (imported direct from Germany by himself) of a superior article of gilt frames, of all sizes, which he will sell at prices which cannot fail of suiting purchasers. He will be happy to show his goods and style of work to all who will favor him with a call, as he is confident that he can please every variety of taste. By good work and honest dealing, he expects to gain the patronage of the citizens of Milwaukee and the surrounding country oct12 d24

Tenure from God.

When God Almighty planted
  Old Adam on the soil
To him and his he granted
  The Earth to tend and toil.
He promised honest labor
  Its bread should ne'er be banned,
And from Oregon to Tabor,
  He feoffed us all the land.

But not to starve 'mid plenty,
  Has Jesus' law decreed
Nor to feed one that twenty
  Should die in savage need,
Nor granted He a charter,
  Like that we now withstand
Nor gave the right to barter
  Our lives and waste the land

Awake! this hour that's given
  And register your vows,
By the One Lord in Heaven,
  To crush the tyrants now

GOOD-BY TO COTTON

FLAX COTTON.—An industrial invention, which is regarded as possessing the highest importance, is spoken of in some of the foreign journals. It is a recently-discovered mode of preparing flax for the manufacturer, "by which the dilatory, costly and wasteful process of *steeping* is altogether superseded." The Paris correspondent of the New York Journal of Commerce, referring to this invention, says "Mr. P. Claussen, it is added, has succeeded in manufacturing the unsteeped flax into various descriptions of material, which possess, respectively, all the warmth of wool, the softness of cotton, and the glossiness of silk, and which, to the eye and the touch, are identical with those fabrics. Arrangements are in progress for making, in Manchester, experiments on a large scale, with regard to the value of Chevalier Claussen's mode of adapting the flax fibre to the cotton machinery. You will have seen that a deputation waited on one of the Secretaries of the British Treasury, 'to impress on the Government the importance of the cultivation of flax, and to demonstrate its application to existing manufactures.' The *proces verbal* of the interview, as extant in the London papers, challenges American attention. The French Government is intent on the growth of flax, and its commissioner to Ireland on the subject, the great practical chemist, Payen, mentions in his official report, the probable substitution of linen for cotton, as an industrial revolution which was advancing rapidly."

AMERICAN LINEN.—It is said that Doctor LEAVITT, of Maysville, Ky., has discovered a process, and invented machinery, by which linen can be produced cheaper than cotton goods of equal fineness, and that the invention is about to be put into practical operation, and a charter has been granted, and a company formed for that purpose at Maysville.—The *Post Boy* of that place, says they have conversed frequently with the inventor, and believe, from a careful examination of his facts and figures, and the material which he produces from unrotted hemp and flax, and the result of producing linen as cheap, if not cheaper, than cotton fabric, can certainly be accomplished; it is, in their judgment, entirely practicable, and must succeed. Dr. Leavitt, the inventor of the process and the machinery by which this great object is to be obtained, will, if successful, have the rare and enviable honor of revolutionizing two great branches of trade and manufactures,—first, the entire hemp business, so far as relates to ropes and coarse hempen fabric, using hemp in the unrotted state, and Kyanizing it so as to prevent decay; secondly, producing linen at so cheap a rate as to make flax a successful, if not triumphant, competitor with cotton, the latter now controlling the commerce of the world—and aptly termed white specie.

Didn't like the Jug.—A wealthy, popular, and gay young gentleman once boasted that he could walk home with any one of the members of a certain Division of the Daughters of Temperance from Church; he accordingly, after services were over, on the next Sabbath, spruced up to a fair damsel, and with a polite bow, tendered his arm. The young lady, as by instinct, drew back as from a serpent, and exclaimed: "No, sir; I'll never put my arm through another *jug handle* as long as I live!

Wheat.—The advantages claimed for drill culture, in the transactions of the New York State Agricultural Society, are as follows:

1. A saving of seed. Five pecks of wheat drilled in, is equal to two bushels sown broadcast: every kernel is neatly covered at a uniform depth.
2. A saving of labor. Any person that can manage a team, can complete, in the neatest manner, from ten to fifteen acres per day.
3. An increase of crop. Small ridges of earth are left between the rows of wheat, which, by the action of the frost, slides down and covers the roots, thereby preventing winter killing: light and heat are admitted between the rows, preventing injury by rust. A vigorous growth is given to the young plant, and its position in a constantly moist place prevents injury from drought.

Similitudes from the Vegetable World.—The fragrant white clover thrives, though trampled under foot; it furnishes the bees with stores of pure honey, without asking or receiving the credit of it. Meekness and disinterestedness.

The morning glory makes a fair show at sunrise, but withers as soon as it becomes hot. Excitement without principle.

To cut off the top of the dock does no good; its root must be eradicated. Sin is the dock root.

The thistle has a beautiful blossom, but it is so armed with spines that every one abhors it. Beauty and bad temper.

The alder bush produces fragrant and delicate blossoms, but the farmer abhors it, because if he gives it a foot, it will take a rod. Obtrusiveness.

If the grasshopper eats the silk of the corn there will be no harvest. Irreligious principles in childhood.

If you go into a field of beggar-ticks in autumn when you come home your clothes will reveal the fact. Vulgar companions.

Cranberries hide themselves beneath the grass; he who would find them must look for them. Modest worth.

GOVERNOR'S MESSAGE.—To-morrow, we shall publish the Message of the People's Governor. The Governor's friends at Madison were so well pleased with it, that they subscribed and *paid* for 1000 copies, in pamphlet form, for distribution, at five cents a copy. If any extra copies are wanted, they can be ordered, as we shall keep the type standing for a few days.

MADISON CORRESPONDENCE.

Thursday, Jan. 23.

This evening, Mr. Axtel, Principal of the Institution for the Blind, at Janesville, gave an exhibition of the progress of his pupils, with accompanying remarks, in the Assembly Chamber. A large portion of the members of the legislature were present, as well as strangers from abroad, and resident citizens. All appeared much interested. At the close, articles manufactured by the pupils, were sold, to the amount of $35. This institution is certainly deserving of support. It was incorporated last year, and one section of the charter provided that a tax of one-fifteenth of a mill be laid for its support. The act passed without scrutiny, and thus, without so intending it, the legislature located at Janesville a *State* Institution for the Blind. The sum of $1800 was raised by this tax last year, and it is proposed this year to lay a tax of one-tenth of a mill for its support. The Trustees wish to erect a building which will accommodate 60 pupils.

☞ The Watertown *Chronicle* publishes an account of the assault upon us,—which the *Wisconsin* greedily copies,—accusing us of striking Mr. Story, and of calling Satterlee Clark aside, with a view of making him a witness in a prosecution case. The article is false in every particular. The facts are, that after a conversation with Mr. Story, in which we gave him our authority and reasons for noticing his acts while Commissioner, we assured him that if he had been misrepresented, we should be happy to make any proper correction. He left my side, stepped to the table, took a candle, and I thought was going up stairs to bed, and, when within a few feet of me, apparently passing me, he turned suddenly partly round and thrust the candle toward my face, I caught the candle and wrenched it from his hand, when he struck me on the top of my head, knocking off my cap, and staggering me against the wall, some few feet from the place where I was standing. He was immediately seized by the by-standers—many being in the room—and taken away.—I neither struck him, nor attempted to do so, nor did I ever *speak* or *think* of prosecuting him, and the *Chronicle's* story, in regard to the transaction, which the *Wisconsin* copies, is without a shadow of foundation. The *Chronicle*, after stealing editorials from us, has taken to lying about us, and in this last branch of business, finds a ready ally in the *Wisconsin*. If our cotemporaries cannot *write* us down, they will never be able to *lie* us down.

☞ The fugitive Long, taken on to Richmond by the Marshall, was deposited in jail there. He was first searched, and a dirk knife found secreted in his clothes. The story that he was rejoiced to get back to Virginia and Slavery, turns out to be a lie, manufactured, probably, by some friend of the new "Union Party."

☞ On the 10th inst., Mr. Coffin, of Otsego, asked leave to introduce, into the Assembly of New York, a bill "to prevent the arrest and removal of free citizens of the State beyond its jurisdiction, *except for crime.*"—The vote on it was, 104 for the introduction, and 19 against it. A large majority, which indicates that the bill will pass. The bill is intended to protect the colored citizens of the State against the kidnapper, and contains the proper penalties. It is such a bill as we should like to see passed by the Wisconsin Legislature. Will it not do so?

Getting rich, and a glass too much.—Henry Woods, employed on a lighter in the New York harbor, received notice from Scotland that $5,000 was awaiting his appearance there. Thereupon he quit his work, went on a spree, and, on returning to the lighter, being drunk, fell into the water and was drowned.

☞ Over $45,000 were paid in the City of New York in 1850, for licenses to sell liquor and make drunkards. Upward of 4,000 licenses were granted.

☞ The cotton and tobacco crops of Florida are reported good. Sugar crop injured by the frost. Arrowroot is beginning to be extensively grown in Florida, and does well.

CITY MATTERS.

☞ DR. DOUGLASS' lecture last evening, was fully attended, the house being crowded, and many standing who were unable to find seats.

The Doctor bore down pretty hard, in some portions of it, on those who attempt to decide questions of any kind, without investigation.

As for the merits of the doctrines argued between him and the other lecturer, we have nothing to say. But the Doctor's lecture was full of points, and some pretty sharp ones—calm, but severe, chaste in style, scholar-like, philosophical, and conclusive. Not to speak disparagingly of either, but to pay both a high compliment, we should say that one was a fair set-off to the other.

He was interrupted in the course of his remarks, by various rappings in one corner of the house, by whom made we do not know.—If by the pretended medium of the spirits, we can only say that they chose a very poor place to "develop" themselves. And if they were made by some one who came to interrupt the speaker and annoy the audience, by buffoonery and disturbance, we can only say, that for their ill-manners, they deserved to have been put out of doors.

We do not think that the public lecture room of a literary society, exactly the place to discuss these questions, especially in the spirit that has been manifested.

A MUSS.—A few nights ago, three or four fellows got drunk in a low saloon, way down Water st., and running out around, came across a young chap, who, they said, must go in and drink with them. He refused, and they took him in, "will ye, nill ye," poured some liquor down him, and left him locked up in a room, to which they shortly returned, and found him insensible, when they proceeded to search him, and took away what money he had, contained in a pocket book in his coat pocket. The rowdies are up before the Police Justice, to have their cases attended to.

ANOTHER.—A man that keeps a disreputable house in the First Ward, entered a complaint, yesterday, at the Police Office, against three or four fellows for an assault upon him, with intent to kill.

It seems the "chaps" were up for game, and the keeper, one Richmond, who has been up, himself, before Walworth, barred the door on them. They then went to the window, against which Richmond was standing, and stuck a knife through it, which entered his hand. He had the "tools" with him, and opened the window and fired out at the coveys who retreated, leaving marks of blood behind them.

☞ The gentlemen who are to attend the Burns' Supper this evening, are requested to meet at Belden's at 8¼ o'clock, to organize, before stowing away the good things there prepared.

Washington, Jan. 17.—In the Senate today, a motion to lay a petition for the repeal of the Fugitive Slave Law on the table, was adopted—yeas, 35, nays, 17. Benton voted nay with the Freesoilers.

There is a certainty now of a collision between Gov. Quitman and the authorities of the United States. The Marshal of Mississippi is a brave, fearless man, and will, at all hazards, arrest Gov. Quitman. The Governor is surrounded at every place, where he may be, with confidential friends who are ready to defend and rescue him.

ANECDOTE.—In the State of New York the real Simon Pure Slave-catchers, the supporters of Webster and Fillmore, are called "*Silver Grays.*" In one of the prettiest villages of that State, the pastor of the church became nervous on reading Dr. Lord's sermon, and the sermons of other learned Doctors, in favor of the infamous Fugitive Law. He determined to preach to his people a more pure and rational gospel. Accordingly, last Sabbath he kept up the subject, and becoming aroused in spirit while alluding to the barbarity of the Fugitive Law, he broke out as follows; "Brethren, this is not the first Fugitive Law that has been passed: eighteen centuries since, it was enacted *that if any man knew where Jesus was, he should make it known unto them.* Then, as now, (said he) there were Doctors of Divinity who preached up the duty of obedience to that wicked law; *but there was found in the whole land of Judea* ONLY ONE SILVER GRAY."—*Cleve. True Dem.*

A promising Family.—The family that never took a newspaper, has moved into Illinois. The old gentleman was surprised the other day to hear that gold had been discovered in California; and the eldest daughter was rejoiced to learn from a neighbor that Webster had been hung, and now she'd never again be troubled with "them hateful spellin' books!"—*Phil. Sun.*

VARIETY.

The Hutchinsons.—Judson Hutchinson has not recovered from his insanity. Jesse now is partaking of the same sad calamity. Asa and John are singing in New England. Abby is at home in New York.

On her way to Japan, the Preble touched at the Loo Choo Islands, a kingdom in itself, yet dependant upon Japan. For gentle dignity of manners, superior advancement in the arts and general intelligence, the inhabitants of this group are by far the most interesting *unenlightened* nation of the Pacific. The Preble is the first American man of war that has ever visited them.

"Come here my dear I want to ask you all about your sister. Now tell me true, has she got a beau?" "No, it's jaundice—the doctor says so."

Tobacco and Cancer.—The use of tobacco is a common cause of cancer, in the tongue and in the lips. For many years back, I have questioned those, affected with these disorders, as to their use of tobacco, and you have had opportunities of witnessing that they have generally answered in the affirmative. Every man who chews tobacco, may, I think, consider himself particularly exposed to the danger of having a cancer, in his lip or tongue. *Dr. J. C. Warren.*

Eight thousand superficial feet in amount, of goods, have been sent to Boston from different parts of Massachusetts, for the World's Fair.

The aggregate population of Pennsylvania, as appears from the census returns, is set down at 2,260,000.

Poetical and Patriotic.—The following toast was drank at the "union meeting" of Grand Lodges of Masons in New York a few days since:—

May Masonic Union in the Empire State, be the happy harbinger of Union in the United States:

A Union of lakes, a Union of lands,
A Union of States, that none can sever,
A Union of hearts with Union of hands,
The American Union forever.

The love of plants is a sure sign of a generous mind. The man that would slay a geranium is only kept by the law from slaying you. In all our travels, we have never met with a rascal that could tolerate a rose-bush.

How kind it is in nature that the moment we get well, we forget that we have been sick. According to Dr. Wing, the pleasure of getting over a fever almost compensates one for having it. Till you get down with the intermittent or typhus, you know not what a world of music there is in a pump handle, or what a champaigney flavor there is in well-water. You don't indeed.

America and the World's Fair.—New Hampshire, Rhode Island, New York, New Jersey, Pennsylvania, Tennessee, Indiana, Ohio, Maryland, Kentucky, Illinois, Alabama, Missouri, Mississippi, South Carolina, and Michigan, have already sent articles for the Exhibition.

How it Works.—The following is from the Memphis (Tenn.) *Eagle:*

"*Facts to be Noted.*—Within the last few weeks, at least five fugitive slaves have been brought back to this city from free States, with as little trouble as would be had in recovering stray cows.

"We occasionally receive letters notifying us that a slave, said to be the property of some one in this vicinity, *has been lodged in jail in Illinois or Indiana for his owner, who will please call, pay charges and take him away.*"

At this rate slave-catching is becoming quite common, if not profitable.

Four things to resist—A hasty temper, extravagance, idleness, and the devil.

Why is the letter a, the best remedy for a deaf woman? Do you "guv it up?" 'Cause it makes her, hear.

He who pulls off his coat cheerfully, strips up his sleeves in earnest, and sings while he works, is the man to get along in the world.

In England, writing, to any extent, is allowed on a newspaper, on the payment of an additional penny stamp.

Soon after the battle of Leipsic, a wit observed—"Bonaparte must now be in funds, for he has received a check on the banks of the Elbe."

Homestead Exemption.—Fifteen States have Homestead Exemption Laws, and N. Hampshire and Rhode Island are also moving in that important matter. The Exemption of the Homestead has been engrafted into the Constitutions of several of the States.

For Liberia.—A vessel is to sail from New Orleans for Liberio, on the 20th inst., under the auspices of the Louisiana Colonization Society. She will take out a large number of colored emigrants, including eighty-five now on their way to New Orleans, from Kentucky, Tennessee, Ohio and Indiana.

Physic and Religion.—The Jerusalem Repository, conducted by Professor Bush, contains "a calm, logical and scriptural exposition of the futility of the pretensions of the followers of Hahnemann to engraft the fallacy of Homœopathy upon the doctrines of the new church."

The Boston Transcript says that Bohn's editions of the English Classics are fast superseding the American editions, being superior in quality, as well as sold at a lower price.

Philander says that it makes him shudder to read the advertisement of a printer for a "boy of good moral character," when it is well known that he means to make a "devil" of him. —*Phil. Sun.*

On Saturday morning last, a lady, the wife of a worthy gardener residing in Brighton, Mass., gave birth to three fine boys, and mother and children are doing well.

It seems by a statement made by William L. Chaplin, at an anti-fugitive slave law convention held at Syracuse, that the total cost of procuring his release from confinement in Washington and Maryland was $25,000.

Letters from Montevideo of the 7th ult., state that extensive preparations are making in Brazil for a war with Buenos Ayres.

The papers are lamenting that the body of Mrs. Girard, the wife of the millionaire, rests in an obscure place in Philadelphia, without a monument. This is not so; she has a monument in a well known part of the city.

BLISS' COMPOUND

Cod Liver Oil Candy.

The Alchymists of old sought to transmute every thing they touched into gold, but they were unsuccessful. Mr Bliss has succeeded better than the Alchymists, in discovering a remedy to which disease is transmuted into health, and this remedy is his Cod Liver Oil Candy, which is the remedy of the age—having proved of vast service in all cases where it has been used, for the cure of Coughs, Colds, Influenzas, and all affections of the throat and chest. To the astonishment of any one who ever took a drop of Cod Liver Oil, the Candy is perfectly palatable. But our friends must beware of counterfeits.

DEVLAN'S LUBRICATING OIL!

The *cheapest* and *best* article ever known for Machinery and *Burning* purposes, as the following statements will show:

Milwaukee, August 1, 1850.

Dear Sir—In answer to your letter making inquiries of us concerning "Devlan's Patent Oil," which we have been burning for some time in our Store, we must say that it has proved to be better than recommended We have been burning it in *open* lard lamps, also in the usual glass lamps, and find it gives far better light than any other oil we ever used, and the consumption is certainly 50 per cent less than other oils Another quality about this oil which we have noticed is, that it does not smoke or gum the wick, or lamp as other oils do, and does not want trimming every day We shall unquestionably use it exclusively for the future, and recommend our friends to do so We give you liberty to refer any person to our store, where it can be seen burning.

You can make this letter public, if you think proper, as we consider the article too valuable not to be generally known Yours, respectfully, — BOYD & LEDYARD.

Reading, Pa., July 12, 1850.

Dear Sir—We have had your Patent Lubricating Oil in use upon the Reading Railroad, for some five months past, during which time we have used it upon our locomotives, cars, and stationery machinery of every description, to the amount of twelve thousand gallons

It has answered the purpose to our entire satisfaction, proving superior in every respect to the best Sperm Oil, in both lubricating and lasting qualities, and assuring to us an economy in its use of at least fifty per cent compared with Sperm or other oils

It does not gum or choke, runs and feeds freely and is more pure, clear and free from sediment or deposite than the best Sperm Oil We are using it every where on the road and machine shops

Yours, very respectfully, — G A NICOLLS,

Engineer and General Superintendent Reading and Philadelphia Railroad

Dear Sir: — *Cohoes, May 28, 1850.*

We have used the cask of "Devlan's Patent Lubricating Oil," that you sent us, and must say that it has exceeded our expectations We have heretofore used Sperm Oil on all our machinery, and the consumption has averaged about one hundred and fifty gallons per month but we are satisfied from the trial of the cask of your Oil used, that one hundred gallons will be equal to one hundred and fifty gallons of the Sperm, and will do the work on our cotton machinery easier and better We therefore order one hundred gallons per month, sent to us at Cohoes So long as you will give us the article of as good quality as the cask above referred to, you may consider this as our standing order. Your obed't serv't,

AMOS TENNEY, Treasurer Ogden Mills, Cohoes, New York

Baltimore, July 5, 1850.

BALTIMORE AND SUSQUEHANNAH RAILROAD COMPANY—This is to certify that there has been in use upon the Baltimore and Susquehannah Railroad, "Devlan's Patent Oil," which has given entire satisfaction, and preference over Sperm or Lard Oil. It works free and *does not gum*

Very respectfully, yours, — ISAAC DENMEAD, Master of Machinery.

Baltimore, July 10, 1850.

Dear Sir—The sample of "Devlan's Oil" I obtained of you, I have used upon the Engine and machinery of the steamboat George Washington, and after a fair trial, have no hesitation in pronouncing it far superior to any other oil I have ever used In the first place, there is a saving in quantity, and its being entirely free from gum, creates less friction, and therefore is not so likely to heat as Sperm or other oils, and in addition to this, it cleared off the old gum, which had accumulated upon the machinery from previously using bad oil, and does the work easier and better If those who use oil for machinery, would only put this upon all their works, and use it for a short time, I am confident they would never use any other

Yours, respectfully, — JOHN J WHITE, Engineer

Norfolk, Connecticut, April 19, 1850.

Sir—Your favor of the 17th instant, making inquiry of us in relation to "Devlan's Lubricating Oil," is at hand We are now using the article on our machinery, and from all the information we can get from our boss Carder, to whom we gave the article to be fully tested, we can say that the oil is what it is recommended to be Mr Decker (our carder's name) says that our line shafting, which heretofore he had to oil every day, he now oils only once in two days, and then uses a less quantity of oil And not only this, but the Lubricating Oil actually cleans off the old gum which accumulated on the machinery by previously using bad Oil The carder says that half the quantity of this new oil will do the same business as double the quantity of Sperm, and do it better. From what we have seen of the working of the article, and from all we can learn of the carder, we feel safe in saying that the getting of this oil into use will be the saving of an immense amount of money to those who use oil for the purpose of oiling machinery.

We are, sir, respectfully yours, — E & E G RYAN & CO

Reading, January 3, 1850.

Sir—We have been using your Patent Lubricating Oil, in Centre Foundry, nine months, and find it superior to the best Sperm Oil, as one gallon will last as long as three We shall use it exclusively in future, and none other We have no hesitation to recommend it to others

Respectfully yours, — MELLERT & SHULER

☞ In addition to the above, the undersigned has in his possession numerous other letters from distinguished Engineers, Machinists and Presidents of railroads, which will be published from time to time. I am now selling large quantities of this LUBRICATING OIL, for Mills, Threshing Machines, and for Burning. It has proved successful, and the proprietor is desirous of introducing it all through the State—therefore solicits orders from all.

Merchants wishing to become Agent for the sale of this useful article, will find great inducements offered by addressing the undersigned; and *Millers, Machinists, Proprietors of Threshing Machines,* and *Families*, will be cheerfully supplied, gratuitously, with a quantity *to try*, by applying at my Store. All communications, addressed (post paid) to the undersigned, will meet with prompt attention. — GEORGE P. GIFFORD,

GREAT ARRIVAL OF

WINTER GOODS!

191 East Water st., Martin's New Block.

EXTRAORDINARY AND DAILY INCREASING ATTRACTIONS AT

CAMERON'S *NEW-YORK STORE.*

Established in Milwaukee in May, 1849,

IN connection with one of the most extensive Importing Houses in New York city, for the purpose of establishing a large and permanent business, on the Cash system.

The proprietors of this already well known and popular establishment take this way of informing numerous patrons, in town and country, that they have made such arrangements to meet the exigencies of their rapidly increasing business, as will enable them to offer still greater inducements to purchasers Their Fall and Winter stock is beyond comparison the most extensive and varied

In the Western Country,

embracing every article usually found in first class houses in the Atlantic cities.

To those who have already dealt with them, they deem it unnecessary to allude to their ability and determination to undersell any other House west of New York city. To those who have not yet examined

THEIR STOCK OR PRICES,

they would say, through their connection in New-York, and an almost unlimited business, they are enabled to keep a resident buyer of great experience in New York and Boston markets, and many other goods are imported direct for their own trade in the original packages, thus securing many

New and Choice Styles of Goods,

that cannot be found at any other establishment here.

Their arrangements are so complete that they can, and pledge themselves that they will sell every piece and style of goods as low as they can be bought in the most celebrated cheap stores in New York or Boston Every piece and style of goods in this establishment, being bought of first hands or at auction, or imported direct, and consequently from

25 to 30 PER CENT. LESS

than Western Merchants pay for them—in fact we sell many styles of goods for less than western merchants pay for them in New York or Boston. Every article will be marked at the very lowest price, and will be guaranteed less in every instance than a similar article can be bought elsewhere

We annex the following list of prices—which we think can hardly fail to convince the public—that this is not one of the humbug pretensions of the day.

Latest and best Collection of Church Music.

NOW READY,

THE GOLDEN LYRE:

A NEW Collection of Church Music adapted to the various metres now in use, together with a great variety of new Anthems, Sentences and Chants, for choirs, singing classes, musical associations, and social sacred music circles—by Y C TAYLOR, author of "Taylor's Sacred Music Minstrel," "Choral Anthems," &c &c

"We have explored its contents enough to dare to speak *well* of it Mr Taylor is, himself, the author of a good part of the work, and he shows musical feeling, taste and invention, which make it no presumption in him to appear as a composer * * *

Mr Taylor's pieces are commended by their melody woven into all the four parts, by their expressiveness, which always varies with the subject, and by their uniformly artistic style * * * And last, but not least, the work is more beautifully and clearly printed than any work which we remember of the kind"—N Y Tribune

"We believe the book to be greatly superior to any that has preceded it, and we think it may claim to be better adapted to, and more suitable for, the use of choirs"—Saroni's Musical Times

"We have examined this new collection of church music, and would add our favorable opinion of its merits, to the many encomiums it has elicited"—N Y Evangelist HAWLEY, FULLER & CO.

THE HISTORY OF GEN. TWIGGS

AFFORDS no parallel to the demand for Oils of all kinds at Johnson's The beautiful article of Solar Oil, at 8 shillings, seems to take with all who use it. A few barrels yet left, with abundance of Sperm, Whale, Linseed, Fanney's, Neatsfoot and other Oils, Jan16w at JOHNSON'S, 151 East Water st.

GEN. TWIGGS

BEING said to have fallen out with the *General Wool*, rendering it still more dirty and compromising it by the unpleasant smell of its ingredients, the undersigned offers a variety of substitutes, such as Jayne's Hair Tonic, Rand's Eau Lustrique and Vegetable Hair Oil, Wadsworth's Circassian Cream, &c &c Jan16w H JOHNSON, Jr

LIFE ASSURANCE.

Ætna Insurance Company, HARTFORD, Conn.—ANNUITY FUND, $150,000.—This well known and long established Company, having organized a new department for LIFE INSURANCE, with an entirely distinct capital, exclusively pledged with its reserved accumulations, for the payment of losses upon Life Insurance only, and in no event liable for the other debts, contracts, or engagements of the Company, is now prepared to issue Policies on Lives, at rates materially reduced from those charged by the Mutual Companies. The leading idea of the system adopted by this Company, is, to ascertain precisely what it is worth to insure a given amount upon a life for a certain time, and to charge precisely that sum, and no more. it is attended with none of those vexatious contingencies which are inseparable from the mutual system—it has nothing to do with scrip dividends or bonuses, the declaration of which upon true and equitable principles, is attended with so much difficulty and perplexity—it is perfectly simple, as well as uniform and equal in all its operations.

The promptness, fairness and liberality which have marked all the dealings of this Company, for a period of thirty years, and the well known character of its officers and directors, afford the surest guaranty that its affairs will be so managed as to afford to the assured that ultimate safety and security which is of first importance in Life Assurance.

Policies will be granted payable after death, or upon the party's arriving at a specified age, at his option; in either case, free from the claims of creditors The usual extra risks will be assumed by this Company at reasonable rates.

Pamphlets containing Rates of Premium, and information in relation to the plan of operations, and all necessary papers to effect insurance, may be obtained at the Agency of this Company.

REYNOLDS' GREAT ROMANCE.
NOW COMPLETE.

The Bronze Statue, or the Virgin's Kiss.

BY G. M. W. REYNOLDS.

Author of Life in London, Ellen Monroe, Mysteries of the Court of London, &c. &c.

Complete in two large handsome volumes. Price $1.

☞ The above work first appeared in Reynolds' Miscellany, the last steamer bringing over the completion.

This work is unlike any of the author's previous works, being entirely free from any thing that would offend the most fastidious, but abounding in scenes and descriptions of the most thrilling character—We defy any one to read twenty pages of the Bronze Statue and lay the book aside

TO THE LADIES.

DYER'S WASHING, BLEACHING AND

CLEANSING FLUID!

The greatest labor-saving article yet discovered

BY its use, washing machines and boards and hard Rubbing, are entirely dispensed with, and not one quarter of the labor is required to do the washing of a family. The Fluid is a chemical compound of sufficient strength to extract all foreign substances from the cloth, by simply boiling a small quantity of it with the clothes, and without the slightest injury to the most delicate fabric.

The expense is not more than that of the soap ordinarily used, and besides this it will be seen that the great wear and tear of clothing consequent upon the old method of hard rubbing upon a board, and the use of the pounding barrel, is wholly dispensed with, and an immense saving is thus made. It is emphatically the female's friend

☞ Warranted to give perfect satisfaction or the money will be refunded.

Prepared only by Charles Dyer, Jr, at his medical depot, 52 Westminster st, Providence, R I.

☞ For sale by STORRS & CLARK, 39 Spring street Milwaukee. nov30 d&c3w
